Troubleshooting FAQs:

Q: My expense report was rejected. How do I fix it?

A: Open the rejected report and read the comments provided by Finance or your manager. Usually, it requires attaching a missing receipt or correcting a cost center. Make the changes and click "Resubmit".

Q: How long does it take to receive the funds once marked "Processing"?

A: EnterpriseCorp processes reimbursements globally on the 15th and 30th of each month. Depending on your local bank processing times across our 8 countries, funds will appear in your account 1-3 business days after the processing date.

Q: I used my corporate credit card, do I still need to submit an expense report?

A: Yes. Corporate card transactions will auto-populate in the portal, but you must still assign cost centers, attach receipts, and submit the report for reconciliation within 30 days.
